C1 email alert

From: monitor@d522.wgu.internal
Subject: **URGENT: Device Compromise Detected—Immediate Attention Required**
To: stakeholders@d522.wgu.internal

Plain text [Source](#)

Dear Stakeholders,

This is an automated alert to inform you that the following device(s) have been identified as compromised during the recent network scan:

Device Name: SVR1
IP Address: 192.168.20.210
Last Checked: 2026-08-12 04:25:49.663105

Device Name: SVR2
IP Address: 192.168.30.210
Last Checked: 2026-08-12 04:25:49.663105

Device Name: PC2
IP Address: 192.168.20.101
Last Checked: 2026-08-12 04:25:49.663105

Device Name: PC3
IP Address: 192.168.30.101
Last Checked: 2026-08-12 04:25:49.663105

Immediate investigation and remediation are recommended to prevent further impact.

If you have any questions or require additional information, please contact the IT support team.

Best regards,
Network Monitoring System

E-mail-resolved

From: monitor@d522.wgu.internal
Subject: **RESOLVED: DNS Service Issue and Device Compromise—All Issues Remediated**
To: stakeholders@d522.wgu.internal

Plain text [Source](#)

Dear Stakeholders,

This is an automated notification to inform you that the DNS service issue and all related device compromises have been successfully resolved. The following devices were affected and have now been remediated:

Device Name: SVR1
IP Address: 192.168.20.210

Device Name: SVR2
IP Address: 192.168.30.210

Device Name: PC2
IP Address: 192.168.20.101

Device Name: PC3
IP Address: 192.168.30.101

No further action is required at this time. If you have any questions or concerns, please contact the IT support team.

Thank you for your attention.

Best regards,

Network Monitoring System
